

The Hangzhou International School Model United Nations Club,

Recognizing the constant inappropriate quarrel amongst the chairs present,

Guided by the need for a mature, selfless individual who realizes what the rightful role of a chair is,

Hoping that the named individuals will recognize the situation and surrender,

1. Calls for a strong, intimidating individual to make sure the above mentioned individuals step down;
2. Urges other delegates to take on the role of a chair and show mature behavior to make Isaac realize his issues as a chair;
3. Hopes to achieve maturity in the individuals through influence by other delegates and proper treatment.
